Information on price adjustments of KAVALIERRGLASS from 1.5.2022

Dear business partners,

Unfortunately, we are once again forced to inform you about the price increase of our largest supplier, **KAVALIERRGLASS a.s.** Despite the fact that the price increase also applies to back orders (see message below), we will keep the goods at the prices they were listed in the system and take part of the loss to the Siot.

Statement from Kavalier:

I regret to inform you of a new price increase of +10% as of May 1, 2022. All input production costs are increasing, we are therefore forced to make this move towards all our customers in the fight for the survival of Kavalierglass. Our owner is in the red and cannot sustain the factory without impacting customers. Electricity and gas are crushing us like any glass company, so we have to fight to keep all Kavalierglass furnaces running. The effect must be immediate, so all shipments in May will be at the new prices. Due to the significant increase in input costs, we have unfortunately had to increase the price of some items by more than the 10% mentioned, and this is mainly for measuring laboratory glassware.

Ing. Jitka Jiráňková
Sales Director
Kavalierglass a.s.

The new prices will come into effect from 1 May 2022 and will be automatically changed in your price lists.
